

Excerpt from Journal

Office of Legislative Counsel

Thursday - 15 February 62

Talked with Carl Marcy (based on the assumption that Mr. McCone probably was unable to reach Senator Fulbright since he was out of town) in connection with the Powers matter. I explained to Marcy that of course debriefings were going on in which agencies other than this one were interested and that, of course, there will be a Board of Inquiry. This will take some days but at their conclusion we wanted Senator Fulbright and the Acting Chairman, Senator Sparkman, to be assured that the information they desired would certainly be made available. Marcy stated that the Acting Chairman had addressed a letter to the Secretary of State on this asking for information but not for the body. To date they have not yet received a reply. Mr. Marcy thanked me for my call.
